420A Race Manifold

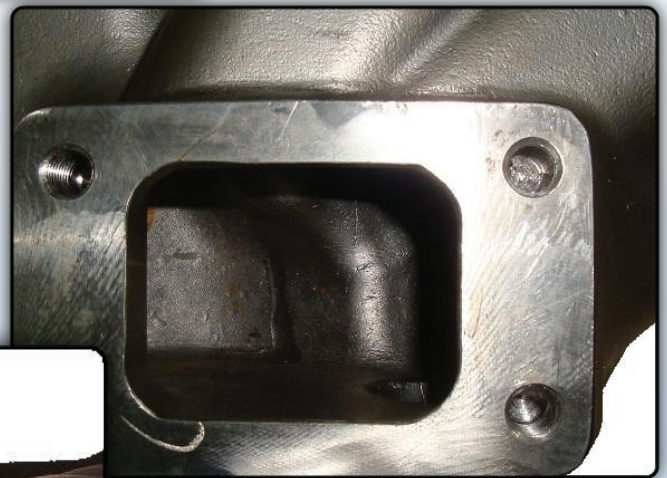

COMING SOON!

Meet the one and only 420A Race Manifold. This manifold was designed for maximum performance without compromising durability. The 420A Race Manifold is the product of a collaborative effort between SymTech Laboratories and Treadstone Performance Engineering, Inc.

\$449.99!

The 420A Eclipse and Talon are no longer confined to the poorly performing log-style manifolds of the past! The 420A Race Manifold is an all original design, drafted in state of the art CAD programs. The revolutionary positioning allows for very large turbochargers with equally large downpipes!

- T3-style Main Flange
- 38mm Waste-gate Flange
- High Quality Cast Steel
- Full Warranty

The most important part of any manifold is the inside! Take a look at the 420A Race Manifold: large runners and a professionally crafted collector allow for maximum flow.
